NOTE:SCORE is calculated as:

SCORE=((10*No. of A's)+(8*No. of B's)+(6*No. of C's)+(4*No. of D's)+(2*No. of E's))/(No. of A's + No. of B's + No. of C's + No. of D's + No. of E's)

Comments-I:

(Faculty)Suggestions/comments to professor(for example, go slow, explain slowly, speak loudly, give more assignments)

The end of your statements are not very audible.

Sir, has taught us very well, he understands student level of knowledge & is very helpful.

If class taken fastly it will be good.

1) Faculty is extremely well-experienced and the course as well as difficulties were given enough time to get resolved. The teaching skills are very ~~well~~ nice.

Everything is fine.

~~The~~ Course name is CPS but more focus is on Racket. Make it platform free. Don't restrict with Racket.

Comments-II:

(About Course Design, topics) Suggestions/Comments: Regarding the Course

Syllabus is good.

MORE PROBLEM SOLVING (PROGRAMS) SHOULD HAPPEN IN CLASS.

If someone want to do the problem on Matlab/C/Python please don't restrict with Racket.

Comments-III:

(About Course Resources) Suggestions/Comments: Regarding materials for the Course

Allow them to do on other platform free because Racket is very new and me, I am not going to use this in computer provided in lab need repair.

SHOULD PROVIDE RESOURCES or lecture notes.

Comments-IV:

Any other suggestions/comments(Overall)

But I am using Matlab so I will focus on concept not Racket. So please make it platform free.

FA's are not helping
We expect little more help from TA's

Teachers should take more courses for teaching.
